## Welcome to PDL POTTERY

Phuoc Du Long (PDL) pottery is located in Binh Duong province in the Southeastern part of Vietnam. We produce planters-glazed, unglazed for planting trees, decorating garden or other purposes. Most of our products are traditionally handcrafted.

Our company was found in 1973 as a small manufacturer with fewer than 50 staffs and only focused on domestic market. In 1998, PDL Pottery Company Limited was established on the area of 13 hectares (130,000 m<sup>2</sup>) with the support and encouraging policy of local authorities. Market demands encourage us to begin expanding our production capacity by upgrading and enlarging factory area, recruiting more staffs and began exporting our products overseas. At present, our company covers an area of 160.000 m<sup>2</sup> and with more than 350 workers and staffs.

With the continuous endeavors of all company members in order to improve the quality and quantity of our products, we have studied and applied the new technology to production line. At the moment, we have total five 12 m<sup>3</sup> and two 18m<sup>3</sup> gas kilns beside 3 wood kilns ("bao" kilns) including the biggest one: 33 "chambers" and one biggest gas-oil kiln with 105 m<sup>3</sup>. End of year 2010, we imported the modern press filter to process clay for creation of soft and purify materials. The expansion in production has necessitated the need for more warehouses to arrange and store products effectively. Early 2011, our warehouse is 82,000 m<sup>2</sup> in area.

With the tradition of four generations in pottery and our desire to innovate, we are able to offer many variations in designs, colors and patterns. We have also expanded our product range including rattan-bamboo, light terrazzo, zinc, fibre-stone and fibre-terrazzo,... New products are continuously designed and improved to meet the need of our customers. We can arrange different packing kinds such as filling up (carton, strapping, timber crated) and palletizing (full pallet, half pallet and mini pallet) for different kinds of items to meet customer demand economically. Besides, we have built a website (<http://www.pdipottery.com>) to promote our business activities since 2000. Our website is a place where you can find more information about us and also can search for interested products.

Coming to our place, you surely conceive the best services: quality, reliability, punctual delivery and competitive price. As the result, we have many long term customers who come from over the world including France, Belgium, Denmark, UK, Switzerland, USA, ... and some countries in Asia.

*PDL is ready to serve you best!*
